JFK assassination appeals — Harold Weisberg 10/13/79

Withholding the public domain - what "The National Enquirer" published -
"Church of the Firstborn of the Fullness of Time"

There is extensive withholding in 62-109060- 2261 and 2262 relating to this falsery that was prominently published in the National Enquirer.

The withholding, typically, appears to be in intended contempt for the AG's policy statement of 5/5/77.

I'm not checking my files but my recollection is that there was also law violation including but not limited to polygamy, also very public.

The regularity of the withholding of what was published in the National Enquirer is not really surprising, considering that you have done nothing after all these years and with a case in court when the FBI withheld the contents of the phone book.
